

CZAR REED MAY BE TURNED OUT

McKinley Wants a New Speaker for the Extra Session.

GROSVENOR IS HIS CHOICE

Hanna's Man Wants a Tariff Bill Trundled to the Front.

FIGHT MAY CAUSE SOME HARSH FEELINGS

The Major May Find Too Much Strength Against Him Regarding the Money Question.

Washington, December 2.—(Special)—There is no longer any doubt that President-elect McKinley wants another speaker for his extra session. At any rate such do Speaker Reed's friends regard General Grosvenor's evident determination to test the speakership with Major McKinley's former rival. Before the last session closed there was a report that the ultra high protectionists intended to make a fight on Speaker Reed, but the rumor was supposed to be merely idle gossip.

But as members continue to come in it is clearly evident that the opposition to the present speaker is assuming tangible shape. One of Mr. Reed's closest friends in the authority for the statement today that General Grosvenor, if he enters the fight, will do so with the full consent of Major McKinley, and that the whole power of the administration will be thrown to his side.

"This is what we have to fear," he said. "The opposition is already corraling their forces. The fight will be a similar one to that made on Randall by Carlisle, except in reversed form.

"Grosvenor will be put up as representing Major McKinley's idea of tariff, and will be backed by the high protectionists. They will force the fight to assume this form.

Grosvenor gave the keynote at the end of the last session when he declared that the present organization of the house committees were trying to belittle the tariff. Major McKinley may see that he is going to make a losing fight and withdraw Grosvenor, but what we fear now is that the next administration by the use of patronage and other executive methods, together with Mr. Reed's personal unpopularity, due largely to his last committee appointments, may be able to defeat him. At any rate, we expect to see the opposition take form at the very opening of the present session."

Want Tariff to the Front. As the time for the reassembling of congress draws nearer and republican senators and representatives who come to Washington discuss the question of tariff legislation, the difficulties of the situation confronting their party becomes apparent.

The wide divergence of opinion among the comparatively few who have expressed themselves as to tariff legislation shows how hard it will be to bring a majority to see the subject in the same light.

Four years ago the democrats had just won a national victory as signal as that over which the republicans are now exulting. They had elected the president and had obtained control of both houses of congress. The tariff was the issue that had restored the democracy to power.

The party appeared to be practically united as to a tariff policy; the leaders said that a tariff law conferring lasting prosperity upon the country would be passed within three months from the date it was undertaken. When the test came, the party split on the tariff, after having worned the patience of the country in its efforts to carry out its pledges.

The republican party returns to power with this heavy responsibility of revising the tariff and providing a permanent financial policy for the government—the two gravest questions of legislation. The ablest party leaders realize that the duties confronting the party call for the most careful consideration and the wisest statesmanship.

While the general opinion seems to be that the tariff should be first taken up by congress, there are some who hold that the finance demands first attention.

Senator Hoar, one of the oldest and most influential republicans in the land, speaks now with a frankness concerning the "greed" of the money power, that would not have been expected from him prior to the election. Other republicans are fully aware to the fact that the market manipulators and money "sharks" are just as ready to victimize one party as another.

Trimming on Protection.

The most rabid goldmen are getting into trim. Representative Patterson yesterday said that there should be no currency save silver under \$5, and the \$5 bills should be made payable in silver.

The hopelessness of doing anything with the financial question that will be permanently efficacious becomes more pronounced as the days pass. The situation is critical in Washington. Not one has presented any scheme which seems at all feasible to another of like stripe. The republicans are somewhat at odds as to what to do with the tariff. They are perfectly at sea as to what to do with finances. E. W. B.

BLUE AND GRAY VETERANS.

Petition for Incorporation of an Association of Old Soldiers.

St. Louis, Mo., December 2.—A petition for a pro forma decree of incorporation was filed in Judge Wood's court this afternoon by the Association of Veterans of Blue and Gray.

The president is George F. Cram. This is the first society of the kind to be formed. Any honorably discharged soldier or sailor on either side during the war of the rebellion is eligible to membership.

THREE MORE OFFICIAL COUNTS.

Wisconsin, Colorado and Illinois Give the Presidential Count.

Madison, Wis., December 2.—Secretary of State Casson today sent a telegram to Major McKinley announcing that the official count of the vote of Wisconsin gives him a majority of 100,000. The election canvassers has just completed its labor and finds that McKinley's electors received 263,335, as against 165,522 for the Bryan electors.

Denver Col., December 2.—The state board of canvassers yesterday concluded the canvass of the votes for presidential electors. The Bryan and Sewall ticket received 155,888 votes; Bryan and Watson, 32,000; McKinley and Hobart, 26,271; partition 4,717; national party, 376; socialist labor 169.

Springfield, Ill., December 2.—The official count of the ballots cast at the presidential election was completed yesterday. McKinley's plurality is 16,427. The vote in detail follows: McKinley, 607,159; Bryan, 465,613; Levering, 9,706; Matchett, 1,147; Bentley, 753; Palmer, 6,391; Bryan (middle of the road), 1,000.

NEW HAVEN IS REPUBLICAN.

Pluralities Were All Small—Farmsworth Is Mayor.

New Haven, Conn., December 2.—Not until 5 o'clock this morning were the totals of the votes in the town elections, which took place yesterday.

It was then established that the republicans have won a sweeping victory by a slender plurality on both tickets.

The plurality of Fred B. Farmworth, republican candidate for mayor, is 12, the smallest on his ticket.

ure

SNOW, RAIN AND SLEET FELL HERE

Atlanta Visited by All Three Within Twenty-Four Hours Yesterday.

6 1/2 INCHES OF SNOWFALL

Was Not a General Snowstorm Sleet Fell Elsewhere.

MANY SLEIGHS WERE BROUGHT OUT

Merry Scenes Were Witnessed on the Streets Until the Snow Began to Melt.

Yesterday Atlanta experienced a heavy snow storm that has fallen here during twenty-four hours on the night December 2, since the weather bureau have established.

From early in the morning till late yesterday afternoon the first white flakes fell and the streets were soon covered with a snow that would be a credit to a city in the far north. Until late in the afternoon there was a moment that either snow or sleet did not fall, and late last night the depth had reached six and a half inches. This is the heaviest snow which has fallen during twenty-four hours since December 1884.

The snow, and especially the last amount of it, was a great surprise to Atlanta. The city had gone to sleep Tuesday night while a slight rain was falling and he expected to wake up in the morning and that the rain was still falling.

The weather predictions were that the weather would be slightly warmer with either rain or snow. Snow was not expected, however, and rain was predicted for.

The usual snow scenes were presented yesterday, and though the weather was disagreeable, Atlanta, made the best of it and thoroughly enjoyed the snow.

The small boy was at his best, and kept the staid old citizen dodging a day long. He worried the drivers of teams and his snowballs were the cause of the fall of many a hat.

Those who owned sleighs at them in running order in a very short time, and a number of them were seen on the streets yesterday.

How the Snow Came.

All Tuesday night up to 10 o'clock Wednesday morning rain and sleet had been falling and the sleet especially fell heavily toward daybreak. At 6 o'clock snow began to fall. Lightly it dropped to the earth at first and then faster and faster until it began to cling to the ground, and soon covered the city with a pretty coat of white.

As the day began to advance the snow came down heavier, and the flakes were as large as any ever seen here before. The weather conditions prevailing at that time were just such as to cause a ideal snow, and the elements did their part well.

Yesterday cloudy and unclouded weather, with snow, rain and sleet, prevailed all over the south and east. In places where the wires were not down more rain and sleet than anything else was reported.

The condition of the weather is due to the fact that for some time past there has been an unusually high temperature throughout the southeast, which has brought cold winds from the northwest.

The high temperature prevailing here has caused the air to contain more moisture than usual, and the cold wind from the northwest has reduced the temperature and lessened the capacity of the air for holding moisture. This has caused clouds to form, and instead of rain falling from them, which was expected, there was a change in the condition which caused the snow in Atlanta. In other places rain fell, and all the wires were seen to predominate.

All Reports Not In.

Owing to a heavy fall of sleet in parts of this an adjoining state and to the freezing rain on telegraph wires, the wires have been down and many of the weather reports were not received yesterday.

No report was received from Augusta, Tampa, Key West, Charlotte or Knoxville. The wires are down in south and southeast Georgia, but the cities above mentioned are the principal ones from which no report was received. Cities below Jacksonville, Fla., were not heard from.

There is a storm of no small proportions on the east coast of Florida. This storm has downed all the wires in the southern and eastern portions of Florida, making it impossible to tell just where it is centered.

All injured telegraph wires will probably be completely repaired during the day. Gangs of men are hard at work wherever wires or poles are down.

Augusta could not be reached by the Western Union and Postal Telegraph companies, who are about the same and in the same regions. The cause of the wires falling was their being weighted down by ice and frozen rain.

There was little or no connection between Atlanta and Macon and between Atlanta and Chattanooga and Augusta and Savannah.

The connection was for a while almost completely cut from telegraphic communication with any other city.

Messages going to other cities were in some instances greatly delayed, and no little trouble was caused. Trains from some of the storm stricken regions were late, but for the greater part they were on time.

All injured telegraph wires will probably be completely repaired during the day. Gangs of men are hard at work wherever wires or poles are down.

WILLIAM H. OVERBY
L. B. WILCOX.

10 PAGES.

ATLANTA, GA., December 3, 1886.

"Uncle Bob" Hardeman's Death. In the death of Colonel Robert U. Hardeman the state of Georgia has sustained a grievous loss.

Although for several days the tidings from his bedside have been of such a character as to foreshadow the issue of his malady, it is nevertheless with profound sorrow throughout the entire state that the sad fact of his death is realized. Few public men in Georgia have filled such a warm place in the hearts of the people as "Uncle Bob" Hardeman. Every one knew him by that familiar term of endearment, and took a special delight in applying it to him.

As treasurer of the state of Georgia for many years Colonel Hardeman enjoyed throughout his entire connection with that office the unbroken confidence and esteem of his fellow citizens. Such, indeed, was the sturdy reputation which he acquired by reason of his conscientious zeal and fidelity that no one dared oppose him in a contest for that office. Had he desired to remain in the service of the state as treasurer it is believed that he could have occupied the office for life.

Such, however, was not the wish of Colonel Hardeman. Retiring a few months ago from the high position which he had filled with so much honor to the state, he withdrew to his country home near Oxford, where he hoped to enjoy a much-needed rest. Instead of realizing this cherished wish, however, he soon found himself, at the request of his fellow citizens, in the race for the legislature. Scarcely had he taken his seat in the house of representatives as one of Georgia's lawmakers before the grasp of disease made itself seriously felt in his system. Once more he retired to his peaceful home, embowered among the trees of Oxford, and sought to find healing in their midst. But in vain he waited. As each day passed his strength diminished until the end came at last and gave the patient sufferer release.

With a deep sense of bereavement Georgia mourns the death of one of her favorite sons. Though other public servants may win her love and claim her remembrance in the years to come, she will never forget the fidelity and consecrated patriotism of "Uncle Bob."

An Extra Session Predicted. A republican senator, who has made it a point to call on and talk with many of his fellow senators, and has outlined for The Washington Post the republican plan as far as it has been decided on.

This senator says that there will be no tariff legislation at the coming session of the present congress, the republicans preferring to wait until Mr. McKinley is in the executive chair. But, to make up for the delay in legislation, an extra session of the new congress will be called by the 15th of March. The senator also says that if there are no obstructive tactics from the democrats, the tariff measure will be completed and put through in three months, and that the extra session will be adjourned certainly before the 1st of July.

This is the most sensible and hopeful announcement we have yet seen from a republican source. Many of the republicans (though undoubtedly some of them know better) are of the opinion that prosperity can be restored by means of a high tariff; and they have impressed this belief on a great many people, especially in the west and north. They now have an opportunity of putting the tariff to the test, and it is an opportunity that rarely comes to a party.

If such a tariff law as Mr. McKinley has the right to insist on shall be the means of restoring general prosperity to the people, well and good. If it shall fail, there will be one political fall for the people to feel themselves with. The democrats should not obstruct the passage of the republican tariff measure further than by entering a just and reasonable protest. By doing so, they will only bring upon themselves

and their party the censure of the many thousand voters whose heads are full of the tariff decision. The democrats should rather help along the republican tariff measure than to obstruct it, for when it is adopted and fails to produce the results that are expected, the people of the country will be compelled to turn to the democratic party for the expected relief.

But it is not necessary for the democrats to actively help along the republican programme. They will be in the minority, and they can simply sit quietly in their seats and refrain from throwing any unnecessary obstacles in the way. They have no responsibility in the matter, and it would be foolish to make themselves responsible for delaying legislation which so many deluded people sincerely believe will restore prosperity.

What a "Campaign of Education"

Means. In connection with the statement made by republican and goldbug newspapers to the effect that McKinley's election was due to a vigorous campaign of education, it is interesting to observe the figures of the negro vote in the north.

For example, in the state of Delaware, which gave McKinley a plurality of 4,196 votes, the negro element of the population cast 6,277. In the state of Indiana, which gave a republican majority of 18,421 votes, 9,643 were cast by negroes. Had these negroes voted for Mr. Bryan the state would have been lost to the republicans. The same is likewise true of California and Maryland, in both of which states the campaign of education was won by the negro voters.

But we wonder if the New York papers know how amusing they are at times.

conditions? Did they endorse the republican policy simply to raise additional revenue and to secure what Editor Pulitzer calls "rest"?

This is what The World seems to think. It hopes that Mr. McKinley will show himself capable of "rising to a great opportunity" and this "great opportunity" to which Mr. McKinley is to "rise" turns out to be the raising of additional revenue.

Is this the secret of all our woes—the cause of all our troubles—the fact that there is a small deficit in the revenue? Is it that this has spread woe and ruin over the land? Is it this that is even now closing down mills, throwing unemployed out of work and sending banks to the wall? Is it this that has caused business depression from one end of the country to the other? If so, it is surprising that some statesmen has not found it out before—surprising even that The World did not find it out before.

It is a measure which deserves the hearty support of every member of the legislature; and The Constitution but voices the sentiment of the people of the entire state in urging those members of the house who voted against the measure to reconsider their action and support it. They will never have cause to regret that act.

With Their Eyes Wide Open.

The New York World is trying hard to make something else than a republican victory out of the election of Mr. McKinley. On this line Editor Pulitzer informs the president-elect that "he knows perfectly that he was not elected by the republican party or for republican party purposes."

What nonsense! The man who did not know what Mr. McKinley and the republican party stood for ought to be disfranchised under the law that prevents idiots and imbeciles from exercising the privileges of citizenship. There was the history of the republican party writ large; there was the political career of Mr. McKinley; there was the platform of the St. Louis convention that everybody could read, and that leaves but one interpretation. That platform set forth the plans and purposes of the republican party, and its whole intention was to invite the voters of the country to endorse those plans and purposes.

It is the veriest nonsense, therefore, for the New York World to say that Mr. McKinley "knows perfectly that he was not elected by the republican party or for republican party purposes." He was elected by voters who preferred the policy of the republican party to that of the democratic party.

The voters had a choice of three policies. The democrats offered them the restoration of silver and the reforms that democratic principles demand. The Palmer-Buckner crowd offered them the gold standard and tariff reform. The republicans offered them the gold standard but international bimetallism can be brought about and the policy of protection.

The people, after hearing all sides and taking into consideration all the circumstances, endorsed the republican candidate and the republican policy. The pretense that they voted for Mr. McKinley for some other reason than the fact that he is a republican of republicans, is the very essence of puerility.

By voting for Mr. McKinley a majority of the people have not only accepted the platform pledges of the republican party, but have given that party a commission to carry out any policy that may suggest itself to the republican leaders.

It may be that, after all, the people will not be satisfied with the way in which the republican party executes its commission; but that is a matter for the future to decide. Meanwhile, it is far too early for such assistant republican organs as The New York World to begin to complain at the result of their efforts to discredit democratic doctrines. They have not succeeded in discrediting these doctrines, but they have aided in the election of a high tariff president, a high tariff congress and an administration as friendly to trusts and monopolies as the one that is shortly to go out. And they have engaged in this business of education.

Depew as a Historian.

Between the historians of the American revolution and Dr. Chauncy M. Depew there is quite a grave difference of opinion.

Without a single exception the historians agree in citing Lexington as the spot on which the first blood of the revolution was shed.

Dr. Depew, however, who also lived in those days and who remembers in chronological order the various engagements between the Americans and the British, gives the following version of the first encounter:

On the 16th of May, 1775, a committee of correspondents was formed in the city of New York to communicate with the different colonies respecting the increasing aggressions of the British government upon the colonies. The committee on war was paid to this communication for a year in most parts of the country, it was taken up immediately by those fighting sons of the Green Mountain boys, and resolved at once to make common cause with the other colonies and to maintain their rights, as they had always maintained them, with their lives. To prevent a persecution by royal authority for this patriotic resolve they seized the courthouse at Westminster, took hold of the judge and royal officers. While they were asleep, in the dead of night, the enemy came upon them, fired into them without notice or parley, and two sons of heroes fell. The first blood of the revolution was not shed at Lexington, but at Westminster, the patriot for a die.

Dr. Depew, however, who also lived in those days and who remembers in chronological order the various engagements between the Americans and the British, gives the following version of the first encounter:

For the School of Technology.

The people of Georgia will regret deeply the failure of the house on yesterday to pass the bill appropriating enough money to equip the Georgia Technological school with a dormitory building, and it is sincerely to be hoped that when the measure comes up again today it will be passed. The fact that a majority of the members present yesterday voted for it, and the further fact that a number of those gentlemen who voted against it have said they did so through a misunderstanding, gives the friends of the measure hope that the school will be given that addition which it so badly needs, and that this will be given through the present legislature.

The state owes a moral duty to these boys of Georgia as well as the educational duty which the school itself is paying so admirably. The boys come here from their homes in the country and outside of school hours, there can be no restraint placed upon them. They are literally turned loose upon the city. The boarding house plan is not objectionable in the smaller towns and the country, where the temptations are not so great, but here in the city it is objectionable because it is dangerous to the welfare of the students who are, in a sense, the state's wards. This moral side of the question should certainly have strong weight with the members of the house and of the senate. This splendid institution cannot reach its highest efficiency without the addition of the dormitory feature.

We observe that our eastern exchanges, notably the New York newspapers, are very much afraid that the republican party, with the energy it is not stronger to, will proceed at once to bring about a change in the conditions which the people have found so intolerable during the past four years. Almost without exception they deplore an extra session. The Herald protests against it with all the emphasis of double leads. The World insists that the republicans should induce the republicans in the present congress to pass a bill providing for adequate revenue, and thus obviate the necessity for an extra session. Editor Pulitzer declares that the people voted for "Retrenchment, Revenue and Rest."

We observe that our eastern exchanges, notably the New York newspapers, are very much afraid that the republican party, with the energy it is not stronger to, will proceed at once to bring about a change in the conditions which the people have found so intolerable during the past four years. Almost without exception they deplore an extra session. The Herald protests against it with all the emphasis of double leads. The World insists that the republicans should induce the republicans in the present congress to pass a bill providing for adequate revenue, and thus obviate the necessity for an extra session. Editor Pulitzer declares that the people voted for "Retrenchment, Revenue and Rest."

We gather from these things that the immediate territory of these newspapers, which has plenty of money at its command, and which is really prosperous compared to the rest of the country, is opposed to all currency reforms, and, as the present conditions contribute to its profits, has set its face against any change. But the question arises: Was Mr. McKinley elected merely to provide additional revenue? Did the question on raising additional revenue play an important in the campaign? Did the people really vote to maintain the present

other splendid educational institutions scattered throughout the state—should offset in the interest of the School of Technology the accident of location here in the mind of any man who might raise such objection as the one referred to.

But it cannot be that such sentiment influenced any member to vote against the appropriation. We do not believe there is a member of the legislature who would allow such considerations to enter into his legislative acts. They know that the School of Technology is one of the most magnificent institutions in the state, that it is doing for the boys of Georgia a work which has already brought practical results and that it is in every way worthy of the hearty support of the state. If they will investigate for themselves, they will be convinced that the addition which is asked in the bill introduced by Mr. Knowles is needed—that without it the school is hardly hampered.

It is a measure which deserves the hearty support of every member of the legislature; and The Constitution but voices the sentiment of the people of the entire state in urging those members of the house who voted against the measure to reconsider their action and support it. They will never have cause to regret that act.

Mrs. Owens Claimed That She Shot
Adolphus for an Insult.

HE DENIED HER ALLEGATIONS, HOWEVER

When the Verdict Was Announced
Mrs. Owens Received Kisses and
Congratulations from Friends.

Mrs. Jesse Owens, who was charged with an attempt to murder young Jake Adolphus last December, was tried yesterday in the criminal court before Judge Candler.

The trial was briefly conducted, and with the exception of the statements of Mrs. Owens and young Adolphus, no testimony of an important nature was given.

The case went to the jury just before noon, and a verdict of not guilty was rendered in a few minutes after the jury had retired to the juryroom.

When the case was called Mrs. Owens walked into the courtroom, carrying in her arms a small baby, which cooed and laughed in childish innocence while the prosecutor was giving his statement.

The bill of indictment, which was returned against Mrs. Owens by the grand jury last December, charged her with having shot Jake Adolphus with a pistol with the purpose and intent of killing him. The deed, it was alleged, was committed at night, and at the home of Mrs. Owens, in south Atlanta.

Adolphus testified that Mrs. Owens shot him three times when he was in her house, and that the shots were fired with intent to kill. He was shot in the neck. The second shot was in the head, the ball entering at the base of the skull in the back of the head and going through the boy's head, passing out just over the eye. The third ball entered his leg, causing a serious flesh wound. Adolphus stated that he was within an inch of losing his life, as it was thought that he had been fatally injured and for several days the physicians did not think he could recover. He stated that the shooting was malicious and without probable cause. He denied that he insulted Mrs. Owens or made any improper proposals to her in the room.

Mrs. Owens had no witnesses, but made her statement from the stand, testifying that Adolphus had called frequently at her house in the absence of her husband, and had done so without her consent and against her will. On the night of the tragedy she says she was at home when Adolphus called and that he entered her room and insulted her. She swore that he caught her by the shoulders and handled her in a very rough manner. At the time of the incident Mrs. Owens said she was in a delicate condition, and was greatly frightened by the attack.

Mrs. Owens said she was greatly excited and alarmed and thought she was in great danger. It was on this account, she said, that she secured her revolver and fired at the young boy. She admitted shooting three times, but said the shooting was in self-defense.

Adolphus was one of the most interested of all the spectators, and leaned over in his chair to hear the statement of the woman who came so near causing his death. He is apparently about twenty years old.

As soon as the verdict of not guilty was returned by the jury Mrs. Owens' husband and a number of friends kissed her and she was led out of the courtroom by her husband.

DENIES ALL THE ALLEGATIONS.

Mr. Johnson Says He Will Be Able To
Disprove Willingham Claims.

Mr. Johnson, who has answered the allegations made by Willingham & Co. in regard to the application for receiver which was filed several days ago in the superior court.

"In justice to myself and wife, against whom the suit has been brought," said Mr. Johnson, "I can say that there is no truth in the charges. Both myself and wife are perfectly solvent and amply able and always ready to pay every obligation we owe. The allegations are incorrect in every material particular, and this will abundantly appear if the plaintiff brings his application to a hearing."

MAY ADVANCE THE ALLEN CASE

Expected That the Motion in the Su-
preme Court Will Be Favorable.

The motion now pending in the supreme court of the United States in regard to the advancement of the Allen case will probably be argued next Monday, and it is thought that the case will be advanced in the supreme court of the United States.

A motion for a writ of habeas corpus was made several months ago and the case went to the supreme court of the United States, where it is now pending. The decision Monday will be watched with interest by many who are interested in the case.

SOLONS DINED LAST NIGHT.

Federation of Trades Entertains the
Members of the Legislature.

In order to invite the members of the Federation of Trades of Atlanta, a large number of the members of the Georgia legislature attended a social gathering of the order at its hall, 62½ Peachtree street, last night. There was a large attendance of members, who gave the solons of the state an enthusiastic reception.

An orchestra was furnished, and the hall was beautifully decorated with flowers.

President Riley, of the federation, presided and made a speech of welcome. He turned the meeting over to Hon. T. B. Felder, who also welcomed the members of the legislature and introduced the various speakers.

Among those who spoke were Speaker Jenkins, George C. Thomas, John T. Boileau, Pope Brown and several others. Refreshments were served and a happy evening spent.

THE CURSE

Of mankind—contagious blood poison—claimed as its victim Mr. Frank B. Martin, 926 Pennsylvania Avenue, Washington, D. C., and the usual physician's treatment did him not the slightest good. His condition reached that deplorable stage which only this terrible disease can produce.

THE CURE

After all else failed, was at last found in S. S.—the greatest of all blood remedies. Eighteen bottles removed the disease permanently, and left his skin without a blemish.

SSS is guaranteed pure, safe and
the only known cure
for this most terrible
disease. Books free;

WORK OF THE BOARD

County Commissioners Held a Busy
Session Yesterday.

DISCUSSED FIDELITY BONDS
Several Interesting Questions Were
Disposed of by the Board.

NO WATER FOR THE CONVICTS' BARRACKS

County Attorney Rosser Will Receive
\$250 for the John Tyler Cooper
Litigation.

The board of county commissioners met in regular monthly session yesterday morning at 10 o'clock in the office of the clerk of the board in the courthouse and is so convenient a spot a populous section of the city that we confidently expect at least a million or more visitors.

"My connection with the state road makes me greatly interested in the upbuilding of Georgia and we hope that the state will be creditably represented at the centennial, as it will be a great opportunity

for discussion and the board was in session nearly two hours.

Chairman Collier was absent and Commissioner Thomson was not in his accustomed chair. Commissioner Spalding acted as chairman for ten minutes and the questions at issue were voted upon by Commissioners Adair and Brown.

At the last session of the board the question of fidelity bonds was discussed at length, and it was then stated that the objection to the bonds was that the companies now operating in the state had placed

several interesting matters were up for

discussion and the board was in session

nearly two hours.

CONTRACT FOR CENSUS

No Doubt Now That the City's Census
Will Be Taken.

PAPERS SIGNED YESTERDAY

Special Meeting of the City Council
Will Be Held Today To Pass Or-
dinances in Regard to It.The census committee of the city council
met yesterday to consider bids for making
a census of Atlanta between now and De-
cember 25th.The chairman of the committee, Mr. Jo-
seph Hirsch, presided over the meeting.
The contract for doing the work was
awarded to Mr. James Williams, for the
sum of \$25. It provides that the work
shall be completed before Christmas Day.The special census is to be made for the
purpose of obtaining additional postal ac-
commodations for Atlanta. The last reg-
ular census, taken in 1880, gave Atlanta
less than 75,000 population. As a conse-
quence, this city is entitled to a postoffice
of the second class only. Members of the
council are positive that the city's growth
since 1880 has been great enough to increase
the population to 150,000.If the census proves to be the case many additional
mail carriers will be added to the force of
the Atlanta postoffice and the pay of the
present carriers will be increased. Then At-
lanta will have a postoffice of the first class
and all of the advantages pertaining
thereto.There will be a special meeting of the city
council this morning to authorize the cen-
sus-takers to make cases against all per-
sons who refuse to give such information as
is necessary for making the census com-
plete. Members of the census committee
have no doubt that the census will show
that Atlanta is entitled to a first-class of-Commissioner King yesterday issued the follow-
ing call to the members of the city council
for a special meeting of the council:Atlanta, Ga., December 2, 1890.—To the
Honorable General Council: Being ad-
vised by the committee on manufac-
tured statistics, etc., that prompt action
is necessary, the census-takers will be
taken during our term of office, under the act of the legislature recently
passed, and that the census should be
taken within an appropriation of \$1,000,
and uniting with them in the
belief that such census is desirable,
I make weekly reports, showing the amount of
taxes paid during the week. More than one
half of the tax is paid by the banks upon
which the checks are refused payment
at the banks after I make my report,
which makes it necessary for me to ad-
vance the money and hold the checks until
they are paid."Unless some relief is furnished on this
account, I am afraid I will have to quit
receiving checks. Many times checks are re-
turned to me. One day about \$12,000 of
checks were refused payment at the banks
upon which they were drawn, and I have been
holding one check for \$250 for twelve
months. I have the check yet, but the
money had been paid the county when I
received the payment of the tax."Commissioner King also said that he did not
think Mr. Stewart should be required to
assume the amount of any check, and he
believed he should not report the tax as paid
until the check was actually paid off."Mr. Stewart could do this," said Com-
missioner Adair. "He could report all as
paid, and the next week, when the checks
are returned, he could call back the amount
from that week's report. It would
be a very difficult matter for him to keep
his cash and the checks separate, and I
think this would be a very good plan
that I have suggested."The board considered the question for
quite awhile and assured Mr. Stewart
that the board would see that he was af-
forded the relief necessary.

GIVE BAD CHECKS

Tax Collector Stewart Says Many Checks
Are Turned Down by the Banks.

WANTS RELIEF FROM BOARD

He Says One Check That Was Given
Him Twelve Months Ago Has
Never Been Paid.Some of the checks which have been
tendered Tax Collector Stewart for the
payment of state and county taxes have
been turned down by the banks upon which
they were drawn.Yesterday morning Tax Collector Stewart
appeared before the board of county com-
missioners and asked that he be relieved
from assuming these checks until they were
paid."I am not making any complaint about
the action of the finance committee of the
post office," said Mr. Stewart. "I would like
to be relieved from reporting taxes as
paid until the checks which have been given
me in payment are actually paid by the
banks upon which they are drawn.""Under the present conditions, I make
weekly reports, showing the amount of
taxes paid during the week. More than one
half of the tax is paid by the banks upon
which the checks are refused payment
at the banks after I make my report,
which makes it necessary for me to ad-vance the money and hold the checks until
they are paid."Unless some relief is furnished on this
account, I am afraid I will have to quit
receiving checks. Many times checks are re-turned to me. One day about \$12,000 of
checks were refused payment at the banks
upon which they were drawn, and I have been
holding one check for \$250 for twelve
months. I have the check yet, but the

think Mr. Stewart should be required to
assume the amount of any check, and he
believed he should not report the tax as paid
until the check was actually paid off."Mr. Stewart could do this," said Com-
missioner Adair. "He could report all as
paid, and the next week, when the checks
are returned, he could call back the amount
from that week's report. It would
be a very difficult matter for him to keep
his cash and the checks separate, and I
think this would be a very good plan
that I have suggested."The board considered the question for
quite awhile and assured Mr. Stewart
that the board would see that he was af-
forded the relief necessary.

"IN GAY NEW YORK."

The Biggest Success of Recent Years
Coming Monday to the Grand.Messrs. Klaw and Erlanger are sponsors for
the production of "In Gay New York,"which will be given on Monday and Tuesday evenings and at the
Tuesday matinee. These managers guar-
antee that the performance will be in al-
most every particular identical with that
given during the long run at the New
York Casino.In intent and fact "In Gay New York" is
a retrospective in travesty, of the more
adventurous and popular scenes of the
season, and as such it follows in its
predecessors, "The Passing Show" and
"The Merry World." The author of "In
Gay New York," however, has profited by
the experience of others and has avoided
a weakness that was noticeable in the two
previous reviews—their lack of sequence
and coherence. In this, the author, Hugh Morton, the author of the book, has
ingeniously strung his bits of travesty,
caricature and good-natured lampooning
upon a thread of story and incident, start-
ing in the rural verdancy of Huckleberry
Center, Maine, and transferred thence to
the whirl, glitter and novelty of "Gay New
York."

NOT THE YOUNGEST SENATOR.

Commissioner Glenn Sends \$8,000
Pedagogues Pay for Last Quarter.State School Commissioner Glenn yester-
day sent to all of the teachers in the
common schools of Georgia their pay for
the third quarter.More than 5,000 teachers will receive
checks this morning.The money is distributed in each of the
127 counties of the state and will be of
great benefit not only to the teachers
themselves but to the communities in
which they reside.The school commissioner expects the bill
providing for the school system to be
sent to Governor to become a law. Yesterday
the bill providing for this officer passed
the senate with a few amendments and
went back to the house. There is little
doubt but that it will be favorably acted
upon by the house.
